

# Agreement between the administrations of Poland and Germany on a Coordination Zone on German Territory for the VHF III Band (174-230 MHz)

## 1 Coordination Zone

Poland and Germany agree on a coordination zone on the German territory as defined in this agreement. Only transmitters located within the area of this coordination zone are considered for calculation of the interference field strength at DVB-T/T-DAB allotment areas on Polish territory in the VHF III band.

## 2 Reference email

Both Administrations recognize that the coordination zone vector data is exchanged in the email from Helmut Wolf of 2018-01-23, 11:43 hrs.

## 3 Revision

Revision to this agreement can only be made by mutual written consent.

## 4 Enter into force

This agreement will enter into force upon the signature of both Administrations.
