

**Addendum**  
**to Technical criteria and principles**  
**relating to DTT in the band 470 – 694 MHz between**  
**the Communications Regulatory Authority of the Republic of Lithuania**  
**and the Office of Electronic Communications of the Republic of Poland**

Brussels, June 5th 2018

This Addendum is aimed at resolving the issue of small allotment areas of the GE06 Plan in order to address this issue more properly in "Technical criteria and principles relating to DTT in the band 470 – 694 MHz between the Communications Regulatory Authority of the Republic of Lithuania and the Office of Electronic Communications of the Republic of Poland", Warsaw, December 12th 2017 (hereinafter referred to as the "Technical criteria and principles").

Hereby, the Parties agree on the following:

1. Allotment areas GELVONAI and VILNIUS indicated in Table 1 of the Technical criteria and principles referring to the channel 22 shall be merged into one single allotment area when adding to the GE06 Plan;
2. Allotment areas GELVONAI and VILNIUS indicated in Table 1 of the Technical criteria and principles referring to the channel 37 shall be merged into one single allotment area when adding to the GE06 Plan;
3. Allotment areas GELVONAI, JONAVA and PANEVEZYS indicated in Table 1 of the Technical criteria and principles referring to the channel 47 shall be merged into one single allotment area when adding to the GE06 Plan.

For revision or cancellation of this Addendum the provisions of Section 4 of the Technical criteria and principles apply. This addendum ceases to be effective in case of revocation of the Technical criteria and principles.

This Addendum enters into force upon the signature of both Parties.
